Summary

I am looking for full-time employment or contract work (temporary or permanent) in the San Francisco Bay Area, but will relocate for the right opportunity. I specialize in React/Redux (but also do jQuery and vanilla JavaScript), Node/Express/MongoDB, and React Native, but will gladly learn any new technologies needed.

Projects

- Freelance project building a **React Native** front end for an e-commerce site, using **Redux**, **Redux-Thunk**, and implementing **i18n** and navigation. (Project is IP, but [here](#) is my review.)
- A simple **React Native** game, my first, launched on Google Play. [app code](#)
- Building various business web pages for freelance clients, for example for a singer, using **jQuery**. A challenge was making **AJAX** calls to the Google Calendar **API** to get calendar data. [site code](#)
- Helped a startup clean up its **Node/Express/MongoDB**, replacing callback “pyramids of doom” with promises and adding a logging system feeding different CSV files based on date and error. (IP, no link.)
- Academic and fun apps: Timezone (**React**, **Redux**, **Node**): [app code](#), Chopin (**React**): [app code](#), Portfolio (**jQuery**, **Bootstrap**): [site code](#), Photo Share (**Node**, **Passport**, **Handlebars**): [app code](#), Voting (**Node**, **Passport**, **Handlebars**): [app code](#), Recipe (**React**, **Bootstrap**): [app code](#), Game of Life (**React**, **Sass**): [app code](#), Repertoire (**React**, **Redux**, soon **React Native**): [app code](#), Stock Tracker (**Node**, **Handlebars**, **Highcharts**, **Sockets**): [app code](#), Heat Map (**D3.js**): [app code](#)

Work History

Position	Location	Years	Duties
Web Developer	self-employed	2017 – present	Working as a freelance web developer, building web sites and mobile apps for clients. I build sites to customer specifications from scratch.
Module Technician, Programmer	Intel Corp. Aloha, OR	1989 – 1995	Cleanroom technician and programmer. In response to a need, I wrote two C programs which were migrated to all departments for which I received an award and bonus.
Guitarist/Instructor	self-employed	1987 – present	Playing jazz guitar and teaching music.

Certifications

Free Code Camp: *Front End Development*, *Data Visualization*, *Back End Development*, *Responsive Web Design*, *JavaScript Algorithms and Data Structures*, and *Front End Libraries*.

Education

Institution	Studied	Achieved
CSU East Bay Hayward, CA	Music (Classical Guitar)	MA Degree, 4.0 GPA, <i>summa cum laude</i> , BA Degree, <i>cum laude</i>
Portland State University Portland Community College Portland, OR	Electrical Engineering (with a focus on programming)	BS degree incomplete, AS Degree
